

Production Access Questionnaire

Testers Community

The objective of this report is to provide comprehensive answers that our clients can use to fill the production access form. You can use the answers directly or can make changes based on how you improved the app. After 14 days of testing, users will be prompted to fill a form on closed testing to get access to production. This document can be helpful in answering those questions.

App Name: Spendstreak

App URL:

<https://play.google.com/store/apps/details?id=com.spendstreak.app>

Production Access Questionnaire

1) How did you recruit users for your closed test? For example, did you ask friends and family, or use a paid testing provider?

We used a paid testing provider to obtain comprehensive feedback on SpendStreak. Additionally, we reached out to some of our target users, including personal finance enthusiasts, to gather real-world insights from those who would benefit most from the app.

2) How easy was it to recruit testers for your app?

Answer: Easy

(You can select your own answer).

3) Describe the engagement you received from testers during your closed test

Testers actively engaged with SpendStreak, providing valuable feedback on features, usability, and overall design. Their input led to crucial

enhancements, such as improved onboarding experiences and better visual representations of app functionalities, increasing user satisfaction.

4) Provide a summary of the feedback that you received from testers. Include how you collected the feedback.

Testers highlighted the need for ASO optimization, a dynamic walkthrough for new users, a "Rate Your App" button, and improved feature-focused screenshots. Feedback was gathered through surveys and direct communication, ensuring we captured diverse user insights effectively.

5) Who is the intended audience for your app?

SpendStreak is designed for individuals seeking to improve their financial habits, including students, professionals, and anyone interested in tracking expenses and income effortlessly. It appeals to users looking for a fun and engaging way to manage their finances.

6) Describe how your app provides value to the users.

SpendStreak transforms money tracking into a rewarding habit, enabling users to log expenses and income quickly. With features like streaks, budgets,

recurring transactions, and offline privacy, it empowers users to gain control over their finances in an engaging way.

7) How many installs do you expect your app to have in your first year?

Answer: 10k - 100k

(You can select your own answer).

8) What changes did you make to your app based on what you learned during your closed test?

We optimized the app's description for ASO, added a dynamic walkthrough for new users, implemented a "Rate Your App" button, and enhanced screenshots to better showcase key features. These changes aim to improve user experience and boost visibility on the Play Store.

9) How did you decide that your app is ready for production?

After thorough testing and incorporating valuable feedback from diverse users, we refined SpendStreak's features, ensured stability, and enhanced usability. The app is now polished, user-friendly, and well-positioned for a successful launch on Google Play.

10) What did you do differently this time?

This time, we focused on gathering feedback from a broader audience, emphasizing the importance of ASO and user onboarding. We also prioritized visual improvements based on tester input, resulting in a more engaging and effective app ready for production access.

You can use the above answers or add your personal touch to those answers to make them more natural and meaningful. Don't forget that this form plays the most important role in the entire process of getting production access. If you have any more questions, please feel free to contact us.

**Best regards,
Testers Community Team**
